Brewing Engineer / Master Brewer (m/f/d) full-time (40 h / week)

JOB ID: E0028, Location: Herzogenaurach

ProLeiT is a medium-sized IT company headquartered in Herzogenaurach, located in the heart of the Nürnberg-Fürth-Erlangen metropolitan region. For global players in the brewing, beverage, food, bakery, dairy, pharmaceutical/biopharmaceutical and chemical industries, we develop and supply automation solutions for the process industry on a worldwide level. Our **process control systems** and **Manufacturing Execution Systems (MES)** are utilized in more than 1,800 production facilities, in more than 100 countries.

Help us transform technological innovation into world-class software solutions and services and become a part of our ongoing success story since 1986!

To expand our **Breweries Competence Center** in Herzogenaurach, we are looking for a brewing engineer / master brewer (m/f/d) as soon as possible.

Your tasks at ProLeiT:

- › Concept development and creation of requirement specifications
- › Creation of customer-specific automation solutions for process control engineering on the basis of process descriptions (requirement specification/functional specification)
- › Execution of software tests (Factory Acceptance Test/Site Acceptance Test) in close cooperation with end customers and system integrators
- › Worldwide commissioning of our brewmaxx process control system and our MES solutions at the customer's production plant

Our expectations:

- › Successfully completed training or successfully completed studies as a master brewer (m/f/d) or Bachelor / Master (m/f/d) Brewing / Beverage Technology
- › Experience in programming SIMATIC S7 controls (AWL) is an advantage
- › Flexibility, worldwide willingness to travel for software tests and commissioning, strong communication skills

Your new opportunities at ProLeiT:

- › We offer long-term employment in a growing, innovative and globally operating company, with flat hierarchy and short communication channels
- › We support you in your personal and professional development
- › Our values of helpfulness, responsibility, openness and respect are lived on a daily basis
- › We support your commitment with flexible working hours, performance-based remuneration, a wide range of social benefits, a gym and a company canteen.

Your application for your new job at ProLeiT:

Please exclusively use the online application function on our homepage, stating your salary expectations and your earliest possible starting date. For a first trustful contact, our human resources department is at your disposal under the telephone number 09132-777-100 or via the e-mail address [jobs\(at\)proleit.com](mailto:jobs(at)proleit.com).
