New subsidiary in Brazil

www.proleit.com

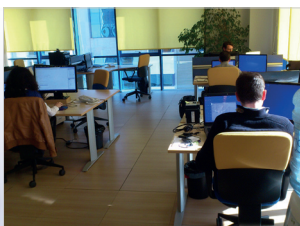

Managing Director of
ProLeiT Automação Ltda.
– Bruno P. Gil.

In 2006 ProLeiT founded, together with the Brazilian plant manufacturer Dedini, the joint venture called „DAP – Dedini Automação de Processos“. Primarily DAP is responsible for the automation of Dedini plants and other projects in the Brazilian market. Especially in the area of the sugar cane industry and bio-ethanol plants DAP is a popular subcontractor, especially for Dedini. In September 2011 the Management Board of ProLeiT AG decided to establish a fully independent subsidiary in

Brazil – the ProLeiT Automação Ltda. – in order to approach the Brazilian market on its own responsibility. On October 22, 2012 the subsidiary went into operation. Engineer Bruno P. Gil (MBA), who has been working for six years as an Engineering and Project Manager at DAP and therefore already worked for ProLeiT indirectly, was named as managing director. After receipt of the first orders the number of staff is going to increase.

Happy anniversary ProLeiT Iberia S.L.U.

View into the Spanish office.

Already in the mid eighties, while both boards worked together in Burgos/Spain, the idea to establish a Spanish subsidiary, that handles all projects in

Spain as well as in Central & South America, was born. In 2007, on November 19, the former vision became reality – the ProLeiT Iberia S.L.U. was founded in Seville. During the first time the subsidiary was supported by staff from the German Headquarters. Step by step a local sales team was established. This team now is led by Christian

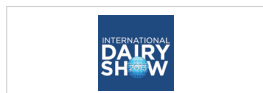

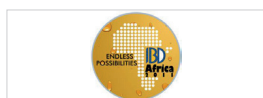

Schlotter successfully. Today, five years after the foundation, the Spanish subsidiary is well established in the market – despite economic crisis – and realizes worldwide major Spanish projects successfully.

Its clients include e. g. Bavaria Colombia, Grupo Leche Pascual Mercaoleo Cargill, Pantaleón and Ybarra. The Management Board of ProLeiT AG says “Happy 5th anniversary, ProLeiT Iberia S.L.U.” and wants to thank all employees for their dedication and commitment and looks forward to many more years of success and interesting projects.

Trainings in 2013

The training dates have been announced. The exact dates and further details are available on our website www.proleit.com/training. For any enquiries, please contact Mr. Christian von der Burg: christian.vonderburg@proleit.com

Christmas Charity

www.proleit.com

ProLeiT AG remained faithful old habits and had decided again to refrain from giving Christmas presents to customers – in favor of a donation. As in previous years, the donation in 2012 again was forwarded to Lebenshilfe Erlangen-Höchstadt (West) e.V. foundation. The donation cheque (worth 2,500 euros) will be handed over by the Management Board,

Manfred Czepl and Wolfgang Ebster, to Josef Hennemann, Managing Director of the foundation, at the end of January. The donation will enable the foundation to support disabled people and helps to promote the integration of people with a primarily mental handicap. By forwarding Christmas donations to the foundation continuously ProLeiT wants to ensure long-term actions, services and facilities of Lebenshilfe Erlangen-Höchstadt (West) e.V.
